#### Zac D., Founder, Z3D Solutions

“My first StartupBREW event was the catalyst to get me connected to several people in the Fargo entrepreneur scene. I have been coming to StartupBREW nearly every week since. I meet someone new that I can help, and also learn something new about business each week I go. It truly is the place where local business owners meet up and discuss their challenges and wins in a way that you cannot replicate in other social settings.”
